

## 6 : WHAT FRUITS NEED BEES?

NAME : \_\_\_\_\_

Lots of fruits are pollinated by bees. The farmer needs bees to help with all the work that has to be done on the farm.

Bees are needed to pollinate berries such as strawberries, raspberries and blackberries.

For a strawberry flower to turn into a strawberry it need to be visited five times by a bumblebee and fifteen times by a honeybee. Apple trees need to be visited need to be visited lots more times.

### FILL IN THE GAPS

- Bees pollinate lots of fruit and \_\_\_\_\_ .
- The \_\_\_\_\_ needs bees to \_\_\_\_\_ with the farm \_\_\_\_\_ .
- Bees pollinate lots of fruit and \_\_\_\_\_ including strawberries, \_\_\_\_\_ and blackberries.
