

## 7: WHAT VEGETABLES NEED BEES?

NAME : \_\_\_\_\_

Lots of vegetable crops are pollinated by bees, and this helps the farmer with all the work that has to be done on the farm.

If farmers had to pollinate the plants by themselves this would take too much time and cost too much money.

Bees are needed to pollinate vegetables like cucumbers, zucchini or courgettes, avocados and broad beans.

### FILL IN THE GAPS

- Some vegetable \_ \_ \_ \_ \_ are pollinated by \_ \_ \_ \_ \_.
- The \_ \_ \_ \_ \_ needs bees to \_ \_ \_ \_ \_ with the farm \_ \_ \_ \_ \_ .
- If a farmer didn't have \_ \_ \_ \_ \_ it would take a lot of time and \_ \_ \_ \_ \_ to \_ \_ \_ \_ \_ the plants.
- Bees pollinate lots of vegetables including cucumbers, \_ \_ \_ \_ \_ or courgettes and \_ \_ \_ \_ \_ .
